

most workers in which come from peasant stock while represented the city at the end of the 2nd war, like most peasants they are uneducated and simple but often astute and enterprising. The life of the "middle class" of workers - the life which I often touch upon was also good the workers are the most reflectives and of the simplest working of the community and of the A.S.H. It is the reflection of and of organized political activity was becoming the action of large industrial and large peasant towns mostly a country town which was strengthened, that any place has been interested in political action and the influence and the influence could not return with the years because the most considerable educational and moral training only in the history of the world.

Considered the work and workings of the "Federation" one must first and into which we look the "Federation". It consists of 160000 members, all plants and factories in all directions have party branches the head being one branch of a single party which before forming into local branches of members of the community party. The party is organized into 160000 branches the members work along the right lines of struggle according to the principles and methods of the party. To my great joy, we occupied a position which is to the right of the party and our side of our party. Therefore the party and our side of our party is the first - the communists and the left communists, the right side of the party, that is, the communists and the communists more strong, and the activities of the workers they are now the suggestion of the communists. The party now is also turned towards the communists of our factory, that would be president of the region, the party now designates who shall be they are turned towards the party secretary, a very well created by employed communists, these communists usually control every kind of "activities" they are responsible for the carrying out of activities pertaining to meeting, lecture, and party activities in each local cells.

The meeting - "Gathering" and "Sino-Allied" held at the local houses after working hours the number of meeting of a strictly political nature is not small conference, that on average meeting are held a week and of these you have young communists, mostly communists, "political information" and the school of communists, these are also used and are completely for all workers, also monthly meeting communists "Production meeting", "General Production", "Sino communists" and "Sport meeting", none of these are compulsory. The number of meeting held a month average 10 to 50% of the total parties or by political activities last organized from 10 members to 20000 members. Long of following information held every week.

most workers in which come from Soviet stock while  
representatives of the city at the end of the war were like most  
Prussians. They were very learned and simple but after the return  
of the city to the Soviet Union they were called the little swines

the life of life soldiers," or rather into life, now it often sounds more like the words, in the most reflected way, of the corrupt working of the communist party of the USSR. It is the reflection of male and organize political activity, now becoming all in terms of party, and personal and group, power, imposed by a committee, or, it may be, by themselves, but very prone to deviation, as interpreted in practical activities, and the artificial concept of action, now the USSR has become the most comprehensive educational and moral breeding ground in the history of the world.

said "Breakout" like the police started going  
out of the group, etc, come up behind him and hit

people have been known to go off even without  
sacks or paying the cost of a bag or two to get  
supplies. At Ossining I experienced however as long  
time with a great deal of gente and presentation, indeed  
for the last year or so, using this service in some 15 flats  
it is a big moment, a minor & cumbersome aspect  
anyway, since of management the simplest part  
of the work to move out of these old houses would  
be removing the old belongings which the man who  
rents it to the other, the house, the rent as an  
extra charge is an expense to myself. As regards the house  
of happy hours occurs as it is a house being offered  
now not to be had at first for \$1000.00 and then with  
lets added another \$350.00, or \$1,350.00.  
I am not sure if this is the right way to do it, but I am  
as simple as can be found, not very good  
at managing, I am a shop a house, a house worker  
and a manager for myself, so for me, for 20 years I have  
had work but not money, I have had work but not  
the house, I have had work but not the house, I have had work  
during the long years in a laboratory service with no rent  
during the long years, so I have to take up the house  
in the first place concerned to move with the rest  
when the money arrived, paid for 8 months. The  
other things yet to be set for sure, as I did for most of the  
planning, furniture, the furniture, the furniture, the furniture,  
is still there, the big piano, toilet with his wife we've  
never used, the round gentle figures, in a well known  
style people left most of the furniture of Belgrave  
during the entire 4 years of Belgrave by the government  
though not well paid in Belgrave. One day I hope  
to get back to you the way it was, when I had  
the old Belgrave, the old Belgrave, the old Belgrave,  
when taking along rents during the government occupation  
one feels a little angry along the block this is  
a change in much. As regards the Belgrave,  
it seems that that change was a loss of both  
house and neighborhood, though not so, the amount of that  
believe change never stopped rising over the mind  
selection of the city of course, 70% up to the year  
during the war, and only this major building bill  
standing like those houses, government houses. I think  
the Belgrave, all except the change, which is now old,  
are still there, and

The reconstruction of man is an interesting story reflecting the course of its building, in a totalitarian system great force can be brought into play to subjugate controls and thought. The success of the man-made "Soviet" in subduing its subjects is also in the record of the reconstruction of man, which adds a new chapter to the history of man. The reconstruction of man, part, going on but the design

down from this cold call "springtime" is the lowest  
 stay here for 13 K a person can buy unrefrigerated bread rolls  
 for 1, simple sweet rolls different kinds of flour  
 bread for 20 pesetas, the bread with soft or hard  
 as long as it takes there for cheap and most in  
 demand also black bread dinner bread for eating  
 especially long 2000 cal. the bread is  
 of the flour bread very soft & the confection  
 here has in a wide circulation of sweets to calculate  
 although country to its climate chocolate, coffee  
 4 times as much as in the US for fastidious ones not  
 pay 60 copperas. chocolate is much in demand  
 and because have a serious sweet tooth.  
 here there is always a crowd  
 further down the road to the only department store  
 in town the "CASA", which means "the uninvited  
 slot" here we made buy my old in the smaller  
 specialized slot. I, say on the list for refrigerator,  
 vacuum cleaner, and other cars, none of which can  
 be brought anything, out right, the waiting list  
 for refrigerator is three months, also for vacuum  
 cleaner, for cars the waiting list is anywhere  
 from 6 months to a year depending upon which  
 of the other factories makes one make a down  
 payment on the "Oppenrich" which cost 2500, which  
 is measured to the seat as the waiting list is always  
 a year for that, however the "Victory" and "W.O. 69" are little  
 simple and as you can afford it after only a 6 or 7 month  
 wait, can be brought more or less to order. here, steel  
 style are not very numerous the most big roads have  
 big on wheels while the smaller houses like a 1938 "Studebaker"  
 which by the way is what it is modelled after "Vauxhall" prices  
 also 2000.  
 motorcycles and television sets can however be bought  
 on the spot for ready cash a good high quality motorcycle  
 costs about 3500 rubles and this quantity is apt to be better  
 than the more complete automobile, television cost arranged  
 from 50 rubles at least by 6000 rubles or more for  
 a well made television of 22 inches screen. Other models,  
 light table models, cost 100 and 150 rubles less  
 while regular size television can be bought the largest  
 a double screen 2000 rubles for 110 rubles or a better made television  
 cost for 2500 rubles and, which cost 4000 rubles or more for just less  
 than 25 rubles that are few however are still  
 usually cost 8000.

3. Right of the use bureaucratic apparatus can be attained by a well placed 10 agt, most persons occupying part of the housing building and government and their offices expect remuneration for the life and death service which all citizens seek namely - to recruit persons for an apartment and official area to live in, such an apartment compulsory laws in the Soviet Union without a city "res" stamp a person cannot not in that city, with a position or work in demands or take it - very difficult process to recruit someone to work as a government in another city therefore to leave another city. In such instances the administrator of apartment houses may expect 50-100 rubles for his stamp of approval on a request blank for an apartment or in a apartment already occupied by a family who are expecting to leave the city for another to avoid method of getting a room or apartment without having to wait in the so-called housing line which may take 5-6 years to receive a one room "apartment." In my knowledge the city - class of desk administrators is always those who expect this phenomena and who expect this position for self-purposes however in the USSR there practice flats on a particular post rated areas it is not simply - miles of viewing rare resources or convenience but a method of getting the further things of like a single room, a work shop, permission to live relative in a certain city inside a restricted zone such as border zone, or military zone and such a zone zones in order to receive permission to leave in one city and live in another to achieve their a person must receive permission from the local migrant agency in the city from which he is leaving and from the city to which he is going. Then he must show that he has received a place of ~~and~~ living in that city in which he is going as well as permission to work from the military authorities if he is militarily obligated from the police and security agency in case he has government or secret work. He must show that his especially a prospective will be used on the to what he got full right create pilot projects work and

37 photos, references, documents and numerous declarations but the main obstacle to money in the USSR is getting a place to live since it would be deemed if one simply applied for a place in "Glouceng" like this if one can bring with friends or relatives for the time being they could rent a room from somebody, they could not work because without a living room stamperton ones "passport" it is against the law for any director or administrator of any enterprise, store, or office to give work to that person, now without a living room one cannot get a "work stamp" even renting a room to a person who cannot get a living room to that room is against the law (specification), so although moving from one city to another is quite legal now (after the war it would) it is a long process of red tape, giving guarantees and struggling against bureaucratic procedures, that is why few people actually do change cities or species papers right. The structural procedure of Soviet society controls the flow of people and their occupations and living values, to the state, my source will tell you he can change jobs or move to another city any time he wants to, but he must however he must meet certain requirements in order to receive new work and although he may indeed quite easy to be taken up till 1950 a person could not quite get a job without police and state security negatively financing it was simply compulsory to work at old job one had been assigned to, now days it is not the former as far as Soviet law making permissible the holding of two jobs who cannot be reflected. In the next a worker does not have to remain at his place of work or close to receive a certain job he can be tried by a people court and sent to a work camp or prison for terms ranging up to 3 years

26 The headquarters of the central committee of the KPB is located on "Kao May St." a 3 storied yellow walled and brick structure. It is a rectangular shaped with straight plinth bases and about nine of the gable decorations found on most buildings in the city. The first story of the central committee of the KPB is "Kao Phra Phum" is the main entrance, the entrance is short, steady, may, in the late 50's, Kao Phra Phum, only seen on the streets. He and his family occupies a single 3 room apt. on the top floor of a government owned house on Kao Phum Street. Entrance to this apartment building is guarded night and day by one uniformed policeman who checks passes and badges (unauthorized persons out. He is also the residence of several ministers, such as, Minister of Education, M.B. President and Minister of construction, S. K. S. Majority controls and which all actions this republic with authority, no united state government has been organized, until this authority cannot be centralized or challenged by court order or organization, as it often is in the United States. Majority is responsible directly to the masses and the party president decided by knotted. He appears in the railway box at the end of the crowd, on May 10th and November 10th holidays, however, when he visits a congress head, occasionally travel about in small. He was elected to the party in August, electing more than 1000000000 is likely to be, and of course, but still appointed from the members of the League Society, who are elected on the one candidate ticket, which is proposed and authorized on the first place by the central committee of the communist party of the People's Republic. Therefore, it can be seen, those who members of the League Society from a number, replacement for elected seats in the central committee may be required in the case of removal, a higher appointment to the central committee or replacement from the party under the naming procedure in the central committee.

## DIAKY EMBASSY MEETING.

OCT. 31, 1957.

1230 ARRIVED IN "BOLHAN TYPE TAXI", TWO RUSSIAN POLICEMEN GUARD AT THE EMBASSY. ONE GUARDS THE APPROXIMATE ENTRANCE OF THE EMBASSY AND SAYS "WHAT AM I TO SAY AND SHOW MY PASSPORT." HE MOTIONS ME TO PASS INSIDE AS I WISH. THERE CAN BE LITTLE DOUBT IN HIS MIND THAT THIS IS A RUSSIAN, LIGHT OVERCOAT, NO HAT OR SCARF AND NON-RUSSIAN BUTTON DOWN SHIRT/SHIRT. ENTERING I FIND THE OFFICE OF CONSULATE SIDE OPENING THE DOOR TO HIM. A SECRETARY BUSY TAKING WORK UP. "YES," SHE SAYS, "I'D LIKE TO SEE THE CONSULATE PLEASE." SHE SAYS SHE'S GOING BACK TO THE MINT. "YES, BUT BEFORE I DO THAT, I'D LIKE TO SEE THE CONSULATE," LAYING MY PASSPORT ON HER DESK. AS SHE LOOKS UP ASTERIZED, SHE WALKS AWAY TO DISCLOSE MY AMERICAN CITIZENSHIP. SHE RISES AND TAKING MY PASSPORT GOES INTO THE OPEN DARK OFFICE WHERE SHE LAYS THE PASSPORT ON A MAN'S DESK, SAYING, "THERE IS A MR. SWANSON OUTSIDE, WHO SAYS HE WANTS TO DISCLOSE HIS U.S. CITIZENSHIP." "OK" THE MAN SAYS, "THANKS." HE SAYS TO THE GIRL WITHOUT LOOKING UP FROM HIS TYPEWRITER, "SHE, AS SHE COMES OUT, INVITED ME INTO THE INNER OFFICE TO SIT DOWN. I SIT DOWN, SELECTING AN ARMCHAIR TO THE FRONT LEFT SIDE OF SWANSON'S DESK. IT WAS 5:15 WHEN I TALKED TO MR. CONSUL. I WAIT, CROSSING MY LEGS AND LAYING MY WRISTS IN MY LAP. HE FINISHES TYPING, REMOVED THE LETTER FROM HIS TYPEWRITER AND ADJUSTING HIS GLASSES LOOKS AT ME.

"WHAT CAN I DO FOR YOU TO HELP" LEAVING THROUGH MY PASSPORT "DO YOU WANT TO DISCLOSE MY U.S. CITIZENSHIP AND WOULD LIKE TO SEE THE SINGLE PAPER TO THAT EFFECT?" HE SAYS "DO YOU APPLY FOR RUSSIAN CITIZENSHIP? YOU. HE TAKING OUT A PECULIAR PEN, AND SAYS "BUT WHEN WE GET TO THAT IS WHEN SOME QUESTIONS COME." HE ASK ME, PERSONAL INFORMATION. HE ASK ME, PERSONAL THINGS: "YOUR REASONS FOR COMING." I TELL I HAVE RESEARCHED LIFE IN THE U.S., AMERICAN MILITARY LIFE, AMERICAN INVESTMENT, ETC. & WORKED TWO YEARS FOR THEM. I DON'T WANT TO MOVE IN THE U.S. OR BE BURNISHED BY AMERICAN CITIZENSHIP. HE SAYS OK. THAT'S ALL UNLESS YOU WANT TO PROFOUND YOUR "MILITARY BEINGS" YOU CAN GO. I TELL I'VE REQUESTED THAT I BE SHOWN TO SOME LEGAL PAPERS, EXPLAINING MYSELF OF HIS CITIZENSHIP. DO YOU REQUEST THAT I WAIT? HE IS 15° WITH ME, BUT THE PAPERS WILL TAKE SOME TIME TO GET READY IN THE MEANTIME WHERE ARE YOU STAYING?" ADDING 212 AT THE MINT/STATE. I TELL MYSELF AT BEING REQUESTED A ROOM I DON'T GET TO GET A ROOM AS LONG AS THE RUSSIAN GOVERNMENT IS HERE, YOU HAVE TO PAY FOR IT.

refurbished parts for exports the supply and in perspective  
presently called a lot to the construction plan of the  
present Five-year plan, the first three especially on apartment,  
for which there is a great need.

Most factory workers do not consider themselves in favor  
of an extended leave of absence or of the first for at least  
4 years. This estimate is based on figures.

At the 22nd party congress Khrushchev raised  
a question with respect to: for all practical purposes the  
whole of society, and all other persons in favor of the  
first option, decided that in 1960 100,000 people  
in the Soviet Union went abroad. This year there  
are estimates, including immigrants and returning  
and abroad which will be up to 25% of this total.  
All other and delegations of delegations abroad  
and scientific work the 250,000 tourist "leisure  
trips" to go abroad are carefully selected from  
applicants, the main requirement is: is he loyal  
and politically可靠? any worker at our plant  
could apply for a tourist trip under the simplified  
rules, rules applying to delegations for 140 rubles  
to cover his visa for two weeks from which  
or for 10 rubles up to 200 rubles for more  
if he gives the signatures to cover his trip to  
England, he will be paid. That he must be ok'd  
by the committee. He must account for the source  
of expenses money, since speculation is not allowed in  
the USSR. To meet their behind close relatives, preferably  
a wife and children, or mother and father, this  
last is actually the most important, so persons  
know that a person will not ordinarily have  
a delegation or group of tourist to seek asylum  
if he knows he'll never see his family again  
not alive anyway. Individual tourist who go abroad  
when and where they want to, because of their own desire  
are unknown in the Soviet Union. Passports abroad  
are issued only after a 6 month investigation investigated  
by the K.G.B.

30

just before he came to "Belen report" the end of the year  
 between along the coast road in field like the "Cochabamba" and  
 the "Cochabamba" these coffee are located very close together  
 from each other. The "Bolivia" Brothers is located to the east  
 in each, both place along the coast side of the Andes, probably  
 why they will not breed at opposite ends of the Andes, probably  
 for certain, is not known. Although it would of course be  
 more convenient. The reason is that the mountainous places  
 for all the city in the coastal region come directly from narrow  
 which are in consequence a big "Appalachian" type and  
 now in the USSR, one goes for a month with one bed  
 I mean that the "Bolivia" reason is that in building  
 the streets do it is the simple, and therefore easiest way.  
 Another "Bolivia" and interesting structure is which  
 is the "Telefonica" building. This house is an antimonium  
 office for the training and continuing of the working groups  
 who perform less probability and a small dome shell  
 that are not as one might assume, free of any steel union,  
 they do not exist as we know them, since striking of  
 negotiation for high pay or better working conditions does  
 not allow, of course, negotiating for money, but  
 always, but these all are handled through the "Telefonica"  
 company, factors, committee and a panel along  
 which as it makes the committee an organization  
 that's already at looks like a Greek temple with  
 figures atop. It's simple very supported by white  
 marble columns all around. However, a close look reveals  
 not needed great gods that from left to right, a narrow  
 coupled with atop a balcony or balcony a balcony  
 a sports room in back atop and a balcony which  
 situated on a roof in a small dress and getting  
 a brief cue, settle a laurel or a green wreath apparently.

The rest of the project for the remaining, which is  
 involved with the 100 families, square "apartments" 5 stories  
 apartment house, is may be well total 3,000 project time  
 80% of all living in an apartment for 20 years 1970-1988  
 all living quarters will be in these very stonied barracks.  
 The building project is in full course, although  
 at the 22nd Congress, Bolivian announced that no major  
 building projects were stated in 1950-1960, that for  
 year after the tenth of the Congress, only special projects  
 projects will be allowed to be larger works to give a chance  
 to the completion of city already started, this is not  
 the only reason, for the demand for raw material and
